

BARCELONA SCHOOL OF ECONOMICS SUMMER FORUM 2023 CALL FOR PAPERS

The Barcelona School of Economics (BSE) organizes the tenth BSE Summer Forum. The Summer Forum is a series of independent workshops that cover the main fields of Economics. The Summer Forum 2023 will take place from June 6 to June 20, 2023. The venue will be UPF Balmes Building (Balmes 132) in central Barcelona.

More detailed information on the Summer Forum 2023 and the previous editions is available on <https://bse.eu/summer-forum>

We would like to invite you to submit a paper to the workshop:

FIRMS IN A CHANGING BACKGROUND: NEW TECHNOLOGIES, CLIMATE CHANGE, AND OTHER DEVELOPMENTS

The workshop will run for 1,5 days and will take place on 13-14 June 2023, in Barcelona.

The goal of this workshop is to discuss the implications of disruptive shocks and trends, such as the rise of new technologies, climate change, and other global developments and uncertainty shocks, on firms. We are particularly interested in theoretical and empirical work on the interplay between these trends, firm dynamics, allocation of resources, and industry-level and aggregate outcomes.

We encourage submissions addressing issues including (but not limited to):

- Macroeconomic consequences of climate change: misallocation, adaptation, and innovations to mitigate climate change.
- Climate change, extreme weather events and firms and worker dynamics.
- The changing geography of production: supply chain disruptions, and production networks.
- Intangible capital investment: measurement, financing, and the link to monetary policy.
- The implications of intangible capital for labor, skills, and inequality.
- Market power and superstar firms.
- Innovation, technology adoption, technology diffusion and productivity.

The deadline for submissions is **February 28, 2023**. To submit a paper, please use this link <https://app-summerforum.bse.eu/>. Submissions should include either a full paper or an extended abstract with the main results. Authors chosen to present papers will be

notified approximately by the end of March. A preliminary program will be announced by the end of April.

Please note that the BSE Summer Forum is a series of independent workshops. When you submit your paper, you will be able to see the topics and dates of other workshops that will take place within the Summer Forum. The same paper **cannot be submitted to more than one workshop**, but you are welcome to submit a different paper to a different workshop.

There is no registration fee, and meals during the workshop will be provided for participants. A limited budget will be available to cover travel and accommodation costs for the participants.

The workshop is funded by the EIBURS grant on *"Intangibles, Technology Diffusion and Public Policies: Implications for Firm Investment, Market Structure and Aggregate Productivity"*.

The BSE Summer Forum is one of the activities supported by the Severo Ochoa Program of Centers of Excellence (CEX2019-000915-S)

Workshop Organizers

- **Andrea Caggese** (UPF and BSE)
- **Andrea Chiavari** (University of Oxford)
- **Sampreet Goraya** (Stockholm School of Economics)
- **Carolina Villegas Sanchez** (ESADE)
