

## BARCELONA SCHOOL OF ECONOMICS SUMMER FORUM 2023 CALL FOR PAPERS

The Barcelona School of Economics (BSE) organizes the Tenth BSE Summer Forum. The Summer Forum is a series of independent workshops that cover the main fields of Economics. The Summer Forum 2023 will take place from June 6 to June 20, 2023. The venue will be UPF Balmaes Building (Balmaes 132) in central Barcelona.

More detailed information on the Summer Forum 2023 and the previous editions is available on <https://bse.eu/summer-forum>

We would like to invite you to submit a paper to the workshop:

### INCOME DYNAMICS AND THE FAMILY

The workshop will run for 2 days and will take place on **June 12-13, 2023, in Barcelona.**

The workshop, which has been running for several years now within BSE Summer Forum, has established itself as a vibrant event that brings together researchers in quantitative and empirical macroeconomics with a special focus on income dynamics and the family. Topics include income dynamics, within-household insurance mechanisms against individual income risk, household formation, family decision making, and related issues.

The deadline for submissions is **February 28, 2023**. To submit a paper, please use this link <https://app-summerforum.bse.eu/>. Submissions should include either a full paper or an extended abstract with the main results. Authors chosen to present papers will be notified approximately by the end of March. A preliminary program will be announced by the end of April.

Please note that the BSE Summer Forum is a series of independent workshops. When you submit your paper, you will be able to see the topics and dates of other workshops that will take place within the Summer Forum. The same paper **cannot be submitted to more than one workshop**, but you are welcome to submit a different paper to a different workshop.

There is no registration fee, and meals during the workshop will be provided for participants. The workshop organization **will not be able** to provide accommodation or travel support for speakers. We expect presenters to attend the entire workshop.

The workshop is partially funded by Ludwig Maximilian University (LMU) Munich, Southern Methodist University, the University of Regensburg, and by La Caixa Foundation Grant SR22-00499 and Spanish Ministry Science and Innovation Project PID2019-111694GB-I00.

The BSE Summer Forum is one of the activities supported by the Severo Ochoa Program of Centers of Excellence (CEX2019-000915-S).

### Workshop Organizers

- **Christopher Busch** (LMU Munich)
- **Nezih Guner** (ICREA-UAB and BSE)
- **Fabian Kindermann** (University of Regensburg)
- **Rocio Madera** (Southern Methodist University)
